

Athletic Therapy Transfer Protocol

Although all transfer cases will be evaluated on an individual basis, ideally with the appropriate transfer credits completed from the U of M/U of W, an Athletic Therapy graduate will be able to complete our Massage Therapy Diploma program in 15 months (3 x 5-month semesters).

I have attached a copy of our schedule for your consideration. The courses that are highlighted are those courses that you would take in order to obtain your RMT Diploma and the ones left un-highlighted would be credits from your University learning. Please note that "Clinic" is a rotational course, so you would be signed up for only 1 clinic rotation each semester (ie. Wednesday evening OR Thursday afternoon OR Thursday evening).

An Athletic Therapy Transfer application will consist of three parts:

- an evaluation of transcripts to confirm transfer credits.
- an Evolve College application package and interview (see our website www.evolvecollege.ca for more details).
- a practical evaluation of A.T. graduate's massage techniques

Based on our assessment of your practical massage techniques, we would have you working with one of our College supervisors for approximately 4-8 sessions prior to your start date in order to ensure that you have the skills and confidence you will require in order to enter into our 'Foundations of Massage II' class as part of your first semester.
